Information Security

PROFILE

I am a hard working, diligent and enthusiastic programmer and front end developer, who excels at creating user-friendly responsive and visually attractive web, desktop and mobile applications. I am passionate about learning and I am seeking a challenging role which will help develop my skills further.

SKILLS & QUALITIES

PROGRAMMING SKILLS

I am proficient in JavaScript and C#. I am able to utilise OOP patterns in my code and working in accordance with DRY principle to deliver high quality, maintainable and easily readable code.

FRONT-END DEVELOPMENT

I am able to create and maintain meticulously crafted web, desktop and mobile apps, utilising my JS and TS skills as well as modern JS frameworks such as React.JS. I can utilise CSS frameworks such as Tailwind and Bootstrap to create stunning UI and my snappy code and design choices ensure excellent UX.

BACK-END DEVELOPMENT

I am able to create server-side applications with the use of Node.JS and Express.JS framework and utilise RESTful APIs to retrieve and display data on the front end.

CODE TESTING

I use JEST software to write thorough and concise unit tests which ensure that no feature remains untested and bug fixes are put in place before my code ever makes it to a branch.

VERSION CONTROL

I use git and github for version control, making sure that my source code is maintained responsibly, and to enable repository maintainers to check my code before it is merged.

WORKING EXPERIENCE

General Operator // IAC Group LTD, Scunthorpe Nov 2022 - June 2023

I was working as a part of a team, in a fast paced environment where I was expected to oversee the manufacture and quality of components while ensuring that the safety standards were adhered to, often under high volume and under pressure.

General Operative // Golden Wonders, Scunthorpe May 2022 - Aug 2022

I have been working in the food industry, overseeing the manufacture and packaging of food products, while adhering to strict quality standards and maintaining the clean environment and hygiene necessary when working with food products. I was always making sure that safety protocols are followed throughout and my time was being managed to ensure the quota was met.

Computer Repairs // Voluntary, Scunthorpe June 2016 - Nov 2020

I have repaired numerous devices ranging from desktop PCs to mobile phones, regardless of when whether it was a software or hardware issue, I have always managed to solve them in a meticulous and timely manner. I also built several computers PCs for a number of people who to date have all been satisfied.
